

# Coordinated project schedule, integrating design with construction ...

## How would you unravel a problem like that?

Integrated design planning, management and control is now a reality

Adept Management, the leading design management specialist and originator of the award-winning 'ADePT' technique, and now a technology program partner of Primavera, has developed the ADePT Design tools to allow rigorous design planning, management and control on your projects.

Training in the ADePT methodology is now available through the DB-Ready program
