

VISTA LONDO TOWER (25 STORIES)

35' SPAN + OPEN CEILINGS?
AND CUT COSTS !!

~~CAN'T BE DONE~~ → CAN BE DONE!

- USE "DEEP DEK COMPOSITE!"
- STRAIGHT FORWARD BUILD
 - STAYS IN BUDGET
 - KEEPS ARCHITECTS HAPPY

THAT'S ~~IMPOSSIBLE!~~

The 35' span of Deep-Dek® Composite is revolutionizing design build high-rise floor systems.

Deep-Dek® Composite is an innovative long-span composite floor system that builds fast because of limited shoring and significantly less concrete. Deep-Dek® Composite seriously saves time and money.

Deep-Dek® Composite — the perfect choice for high-rise offices, hotels and multifamily housing. For more information, visit metaldek.com.

Please visit us at Booth 821 during the Design-Build Conference & Expo in Dallas, Oct 31-Nov 2.
