

Q ■ Looking for ways to  
■ differentiate your bids?

A ■ Your concrete flatwork can help  
■ you win work.

Whether you are bidding private or public projects, PNA can help with proven solutions like the “strategic reinforcement” design that uses tapered plate dowels at all joints. By optimizing your concrete flatwork, you can cut costs and secure opportunities by:

- Reducing steel and concrete
- Improving efficiency and safety
- Shortening construction schedules
- Reducing your call backs
- Collecting your retainage

Call today to help secure your competitive advantage.
