

Precast Modular Solutions

✓ **Pre-finished and furnished modular cells provide advantages to the overall construction schedule measurable in months.**

✓ **Precast Modular cells offer a durable and sustainable construction solution:**

Exceeds ASTM testing requirements.
Resistance to corrosion.
Thermal efficiency.
Fire resistance.
High humidity performance.
Extreme climate applications.
Adaptable design.

✓ **Local and regional casting allows for the most efficient communication between the Client, Contractor, and RW, as well as streamlines coordination between trades.**

Design and Construction professionals worldwide are fulfilling their responsibility to be good stewards of the earth's finite resources.

By incorporating efficient materials and design solutions, Rotondo Weirich engages in the industry's effort to contribute highly sustainable design and construction methods to the correctional industry.
