

## Award Winning Construction

Skanska is the name behind some of the nation's most high-profile construction projects. Many, such as AirTrain, JFK Light Rail System; Cooper River Bridge; the Escambia Bay Bridges and the Corona Maintenance Shop and Car Washer Facility are design-build projects and were all constructed by Skanska USA Civil, a business unit of Skanska.

Skanska is one of the world's leading project development and construction groups with expertise in construction, development of commercial and residential projects and public-private partnerships. The Group currently has 57,000 employees in selected home markets in the US, Europe and Latin America. Headquartered in Stockholm, Sweden and listed on the Stockholm Stock Exchange, Skanska's revenue in 2008 was \$21.8 billion.
