

SMARTBEAM®

“SMARTBEAM® provided the perfect balance between the light transmission and load/deflection characteristics we were looking for. It was a perfect fit for our project.”

—Rick Gardner, Architect of Record,
Hnedak Bobo Group

Ideal for long span projects, SMARTBEAM® from CMC Steel Products is 50% lighter than traditional steel framing making it an innovative alternative to other systems. There is no added cost to incorporate services with SMARTBEAM's® unique column free design. SMARTBEAM® is the right choice for long span floor structures—don't take our word for it...

**Take it from the people who count—
the professionals using it.**
