

# Right Where You Need Us to Be.

## Local

- ▶ RW stimulates the community's economy by utilizing local labor and businesses
- ▶ Reduces product transportation costs
- ▶ Use of native materials from local sources offers a highly sustainable form of construction

## Flexible

- ▶ Project delivery systems designed for performance in high seismic areas, remote locations, challenging labor markets
- ▶ Capital equipment designed and maintained for adaptability and mobility

## Accessible

- ▶ Project management teams operate on or nearby the jobsite, providing the highest level of collaboration with your project team
- ▶ RW engages associated trades on the jobsite to ensure seamless execution of scopes of work
