

\$100+ Million Design-Build Contracting Opportunity

with San Luis Obispo County

San Luis Obispo County intends to procure two Design-Build contracts for the Los Osos Wastewater Project. Los Osos is located on California’s scenic Central Coast, mid-way between LA and San Francisco.

The contracts will be for the following:

Collection System: Design and construction of approximately 45 miles of pipeline, plus service laterals and appurtenances, to serve approximately 4,800 properties. The estimated construction budget is approximately \$80 million.

Treatment Facility: Design and construction of a 1.2 MGD secondary plant, with optional tertiary processes, on a greenfield site. The estimated construction budget is approximately \$25 million.

A formal Request for Qualifications is planned to be issued in mid-December. Go to the Project website at www.slocounty.ca.gov/PW/LOWWP/DB.htm or contact John Waddell, Project Engineer, at (805)788-2713 for more information.
