

Be Part of Something Great

DBIA INDIVIDUAL MEMBER BENEFITS

INFORMATION

Discover leading Design-Build publications including Integration Quarterly magazine and specialized industry publications via our online bookstore. Also, learn of new projects coming up for bid using our E-Pipeline tool.

EDUCATION

Improve your technical and business skills by taking part in DBIA's education tour. DBIA educational programs are practical "how to" courses about design-build with topics ranging from an introduction of design-build techniques to advanced application of design-build concepts. DBIA coursework also allows members to advance towards DBIA Professional Certification.

NETWORKING

Join forces with other practitioners and industry owners. Search and connect with other Design-Build professionals through our online directory and through involvement in your local chapter. Meet DBIA Certified professionals and professionals specific to your industry at DBIA's specialty and annual conferences. Be recognized by your peers by participating in DBIA's prestigious award program and nominate your design-build project or a design-build leader you know.

ADVOCACY

Reach out to promote integrated services, educate owners, and inform legislators. Learn of laws being passed in your own state and see how they impact your project.

Design-Build is a burgeoning industry which today accounts for over 40 percent of all non-residential design and construction in the US-- and this growth curve shows no sign of slowing. As reported in a recent edition of Engineering New Record, design-build revenue has nearly doubled since 2004 increasing from just over \$40 billion to nearly \$85 billion in revenue in 2007.

DBIA is proud to be the voice of this industry of leaders in the design and construction fields who utilize design-build and integrated project delivery methods to achieve high performance projects.
