

Payne Fence Products has a proven record of providing the engineering, design and assembly of the best-in-class components essential to the success of correctional fencing applications.

With Payne's patent-pending **Guardian Fence System**®, you gain the benefits of an affordable modular, anti-cut and anti-climb barrier that easily integrates high security components, such as

- Tamper Detection
- Communications
- Surveillance
- Crash-Resistant Gates

These product solutions, plus the unrivaled service of Payne Fence Products' support team, have made us the supplier of choice on projects for public

facilities, private correctional providers, and in particular, the U.S. Department of Homeland Security.

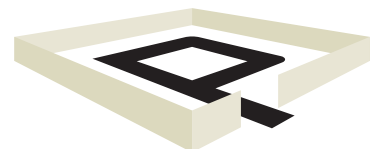

As you begin planning perimeter or segregation areas for your correctional facility, call on Payne Fence Products to deliver Solid Solutions.
