

"At the end of the day, your 3D model will most probably end up in Tekla Structures, so why not start with it!"

– Ray Young, Arup

# Structures That Do The Job

**COLLABORATE** – Exchange model data with architects and other designers

**DESIGN** – Use the best structural modeling tool to bring your ideas into practice

**DELIVER** – Produce quality plans, elevations and details directly from the model

Item	Grade	Qty	Length (m)	Volume (m <sup>3</sup> )
WEL-100	200x10	0	10000	147.1

Model: Financial Center, Shanghai, China

In addition to improved design efficiency, drawing output, change management, and multi-user collaboration, Tekla Structures software easily integrates with other systems, such as architectural, MEP process layout, and structural analysis & design solutions. The structural model that you create is used by detailers, steel fabricators, precast manufacturers, and contractors. Use the same model to save time and to ensure quality projects, which benefit everyone involved. Tekla Structures is the one tool that does the job from conceptual design all the way to detailing, construction and site management. Contact Tekla US for more information, call 1-877-TEKLA-OK
