

#1 in Transportation

AECOM's ranking in
Engineering News-Record's
2008 Design Firms Sourcebook

Route 1 Bridge over the old Potomac Railroad Yards, Alexandria, VA. AECOM is the Engineer-of-Record to Shirley Contracting Company.

Local presence. Global resources.

For more than eight decades, the engineering design professionals of AECOM Enterprises, Boyle, CTE, DMJM Aviation, DMJM Harris, Earth Tech, HSMM, STS and TCB have proudly worked to shape our surroundings, designing some of the most significant, recognizable transportation projects around the world.

Now we are united as **AECOM Transportation**. While our name is new, our people, relationships, ties to the community and commitment to design excellence remain the same. By integrating global expertise with local knowledge, we're able to create positive change today and lasting benefit for the future.

Booth #401 - Come visit us at the 2009 Design-Build in Transportation Conference.
